PINE AVENUE PAVEMENT REHABILITATION PROJECT MOVED TO MARCH 16

Chino Hills, CA – The start of the Pine Avenue Pavement Rehabilitation Project, between SR71 and Butterfield Ranch Road, has been moved to March 16 - 20 to avoid scheduled closures of the southbound SR71 Soquel Canyon Parkway off-ramp. The Caltrans schedule indicates that the Soquel Canyon Parkway off-ramp will be open during that week. All American Asphalt Inc., the City's contractor for the Pine Avenue project, agreed to the City's request for a new schedule to reduce impacts to motorists.

Changeable message signs will provide notification of the project. Construction hours are weekdays from 7:00 a.m. to 4:00 p.m. and motorists should expect delays. At least one lane of travel in each direction will be maintained at all times. Road surface grinding and pavement work is scheduled for Thursday, March 19 and Friday, March 20. Temporary lane striping, slurry seal, and final striping are scheduled during the week of March 23 - 27. The schedule is subject to change. Neighboring businesses will be notified of the project's schedule change.

All American Asphalt was awarded the \$192,500 contract funded by Senate Bill 1, the "Road Maintenance and Rehabilitation Account", approved by voters as the Road Repair and Accountability Act of 2017 to rebuild California by fixing neighborhood streets, freeways, and bridges across California. For additional information, please contact the project manager, Senior Engineer Carl Hassel, at (909) 364-2817.
