## **ORGANIC WASTE COMMUNITY WORKSHOPS FOR RESIDENTS AND BUSINESSES**

Chino Hills, CA – The City of Chino Hills in partnership with its new waste and recycling service provider, Waste Management, will be hosting a series of organic waste community workshops during the month of May. Residents and businesses can meet the new service provider and learn about the new organic waste requirements for households and businesses. No pre-registration is required for the workshops.

A residential community workshop will be held on Wednesday, May 4 at 6:00 pm at the Chino Hills Community Center, located at 14250 Peyton Drive. Waste Management will provide an overview of the new organic waste requirements, followed by a Q & A.

Businesses will be offered the opportunity for one-on-one walk-in meetings with a Waste Management representative to learn more about the requirements as they relate to their specific business sector. Businesses can drop-in the Chino Hills City Hall Community Room, located at 14000 City Center Drive, during any of the following time windows: Monday, May 9 between 10:00 am to 12:00 pm or 2:00 pm to 4:00 pm, or on Thursday, May 12 from 10:00 am to 12:00 pm or 2:00 pm to 4:00 pm.

Waste Management will begin providing waste and recycling services in the Chino Hills community when their contract officially starts on July 1. Prior to the contract start date, residents will receive a welcome packet from Waste Management mailed to their service address. The packet will include detailed information customers need to know about the transition, the new trash cart delivery process, trash pick-up days, and more.

Additional workshops will be offered by Waste Management at a later date for anyone who is unable to attend the above dates and times. Please keep an eye out on the City's website and social media platforms for more information. For questions related to the community workshops, please contact the City Manager's Office at (909) 364-2610.
