ORGANIC WASTE COMMUNITY WORKSHOP FOR RESIDENTS ON MONDAY, JUNE 13

Chino Hills, CA – The City of Chino Hills in partnership with its new waste and recycling service provider, Waste Management, will be hosting an organic waste community workshop on Monday, June 13 from 6:00 pm to 8:00 pm at the Chino Hills Community Center located at 14250 Peyton Drive. Residents can meet the new service provider and learn about the new organic waste requirements for households. No pre-registration is required. This workshop will offer the same information as presented in the earlier May workshops so residents who attended a previous date do not need to attend twice.

Waste Management will begin providing waste and recycling services in the Chino Hills community when their contract officially starts on July 1. Prior to the contract start date, customers will receive a Residential Service Guide from Waste Management mailed to their service address. The packet will include detailed information customers need to know about the transition, the new trash cart delivery process, trash pick-up days, and more. For more information related to the service transition, please visit www.chinohills.org/TrashServices.
