**CITY OF CHINO HILLS SEEKS INPUT ON GENERAL PLAN UPDATE
TO DETERMINE COMMUNITY VISION FOR THE FUTURE OF THE CITY –
NEW ENVIRONMENTAL JUSTICE SURVEY AVAILABLE**

Chino Hills, CA – The City of Chino Hills is in the process of updating its General Plan and is seeking input to determine the community's vision for the future of the City of Chino Hills. Public input is an important part of the process. Throughout the process, the City is conducting several community surveys and is encouraging the public to take to provide feedback. The City previously gathered community feedback on the Housing Element Update and the vision statements included in the General Plan.

The General Plan is based on the community's vision for the future of the City of Chino Hills. From the time of its incorporation, the City has envisioned itself as a community with a high quality of life while preserving its rural character. The General Plan update will refine the City's vision to maintain the City's high quality of life and to meet the challenges of today.

As part of the next phase, the public is encouraged to provide input on the new Environmental Justice element. This new element will be included in the updated General Plan to address inequitable distribution of pollution and associated health effects. To take the survey and learn more about the City's General Plan Update, please visit www.chinohills.org/GeneralPlan. The survey will be available until Friday, December 2. A community workshop is also being planned for Thursday, November 10 to help residents learn more about this new element and provide the opportunity to ask questions. More information regarding the workshop will be available soon.
