Marsha Roa, City of Diamond Bar, (909) 839-7055
Sam Pedroza, City of Industry, (909) 964-2047

DATE: June 2, 2023

SOUTHERN CALIFORNIA EDISON TO REPLACE TRANSMISSION TOWERS WITHIN TRES HERMANOS RANCH PROPERTY JUNE 1 AND 2

Chino Hills, CA – The Cities of Chino Hills, Diamond Bar, and Industry work jointly on the Tres Hermanos Conservation Authority to protect the 2,445-acre Tres Hermanos Ranch property located in the cities of Chino Hills and Diamond Bar. Southern California Edison (SCE) owns several transmission towers within the Tres Hermanos Ranch property and will be performing work on Thursday, June 1, and Friday, June 2 to replace a transmission tower that was damaged by cattle that graze the property. The damaged tower will be replaced with two new poles secured by concrete caissons which will provide future protection against cattle rubbing against the poles. This project is for the replacement of existing SCE equipment only. No new SCE utility poles will be installed during this project.
